

Ulster County
Emergency Medical Services
Multiple Casualty Incident Response Plan

May 19, 2014

Response Plans

The following pages reflect a pre-planned mutual aid response to a multiple casualty incident (MCI) for each ambulance service in Ulster County. The listing is by the ambulance service's primary response area and / or corresponding fire district. The response is based on the estimated number of patients to be cared for. There are approximately five (5) ambulances assigned for every ten (10) patients requiring transport.

This document may be used as a guide should the incident commander wish to give a single order to dispatch mutual aid for an MCI with "X" number of patients. No resources will automatically be sent without the request of the incident commander. As units are displayed in ranges, it may not be necessary to dispatch all units in the grid. Upon request, sufficient ambulances shall be dispatched based on the formula above. The order of services listed within each block is not necessarily the order in which those services should be dispatched.

Each section contains information relative to mutual aid ambulances followed by a list of additional resources that may be required.

The information contained in each agency's response section was submitted by the ambulance service listed at the top of that page. This is a living document, and as such, ambulance services are encouraged to make changes or updates to their pre-plans. Once completed, these changes should be sent to:

Mobile Life Support Services

The response pages that follow for Mobile Life Support Services are for the Greater Kingston Area. These areas include their primary response area where there is no BLS Ambulance assigned to that geographic area. For the purposes of this MCI Plan the Greater Kingston Area will include the Fire Districts of the City of Kingston, Ulster Hose, East Kingston, Spring Lake, Sawkill, and Ruby.

For rotational purposes Mobile Life Support Services will cover this response area on the **Odd Months of the Year**.
